Folks,

Attached is the GSENM Advisory Committee FRN package for a May 2/3 meeting for your review and submission. If you find any corrections or make any changes, please let me know so I can maintain a corrected package here (and not repeat the mistake!). And Mike, thanks for volunteering to help get this through...the effort really is appreciated.

Briefing Paper

1. State Office

Grand Staircase-Escalante National Monument (GSENM)

2. What is the title of this notice?

Notice of Grand Staircase-Escalante National Monument Advisory Committee Meeting

3. What are the key issues raised by the underlying decision documents for this notice?

The Secretary of the Interior established the GSENM-MAC pursuant to section 309 of the Federal Land Policy and Management Act (FLPMA) of 1976 (43U.S.C. 1739) and in conformity with the Federal Advisory Committee Act (FACA) of 1972 (5 U.S.C. Appendix 2). The fifteen appointed members of the GSENM-MAC perform several primary tasks. As specified in the Committee charter, the GSENM-MAC may be requested to: (1) Gather and analyze information, conduct studies and field examinations, seek public input or ascertain facts to develop recommendations concerning the use and management of the Monument; (2) review programmatic documents including the annual Monument Manager's Reports, and Monument Science Plans to provide recommendations on the achievement of the Management Plan objectives; (3) Compile monitoring data and assess and advise the DFO of the extent to which the Plan objectives are being met; (4) Make recommendations on Monument protocols and applicable planning projects to achieve the overall objectives are being met; (5) Review appropriate research proposals and make recommendations on project necessity and validity; (6) Make recommendations regarding allocation of research funds through review of research and project proposals as well as needs identified through the evaluation process; (7) Consult and make recommendations on issues such as protocols for specific projects, e.g., vegetation restoration methods or standards for excavation and curation of artifacts and objects; and/or (8) Prepare an annual report summarizing the Committee's activities and accomplishments of the past year, and make recommendations for future needs and activities. The committee charter states that the committee will meet a minimum of two times annually. This is the third meeting of Fiscal Year 2017.

4. Who are the primary users affected by or parties interested in the underlying decisions or actions? What are their concerns?

The GSENM-MAC has been successful in bringing diverse and often competing interests to the table to deal with issues of mutual concern. This inclusive approach has shown great promise as a means to successfully deal with long-standing problems of public land management. The GSENM-MAC has demonstrated that consensus-driven recommendations often lead to sustainable outcomes that benefit natural resources and often enjoy a high level of public support.

5. Is tribal consultation appropriate under E.O. 13175 or other authorities? Will the proposed action potentially impact tribes or tribal lands, or generate their interest? If so, what consultation or other communication/outreach are you planning?

Although formal Tribal consultation is not appropriate for this purpose, outreach to the Tribes does occur.

6. Will this notice be controversial?

No

7. What will the underlying decision or action change? (Summarize changes to policy, management practices, allowable uses, differences between draft and final, etc.)

There will be no changes.

8. Will this notice need communications materials, e.g., a press release or a Communications Plan? If so, enclose these materials with the notice package submitted.

No.

9. What are the reasons for the timing of the notice and the consequence, if any, of delaying or canceling the release?

This meeting is the third of Fiscal Year 2017. The committee is to meet 2-4 times per year. This meeting was scheduled to facilitate committee input to several ongoing public planning projects. Delaying this notice would force the meeting to be postponed; which, because of members' schedules and the need for coordination between members, might prevent the committee from providing valuable input to the planning process.

10. How has this action been analyzed under the National Environmental Policy Act (NEPA)?
Analysis in accordance with NEPA is not required.

11. Is there any additional pertinent, descriptive information that reviewers need to know or would increase understanding?

No.

12. List the names and positions of the people who have prepared, reviewed, and approved the notice and the underlying decisions and documents.

The BLM manages more than 245 million acres of public land, the most of any Federal agency. This land, known as the National System of Public Lands, is primarily located in 12 Western states, including Alaska. The BLM also administers 700 million acres of sub-surface mineral estate throughout the nation. The BLM's mission is to manage and conserve the public lands for the use and enjoyment of present and future generations under our mandate of multiple-use and sustained yield. In Fiscal Year 2015, the BLM generated \$4.1 billion in receipts from activities occurring on public lands.
